To Whom It May Concern

This is to certify that **Haseeb Imdad** is currently employed at XOVOLT as a **Software Engineer (Full-Stack Developer)** since 2023. Throughout his ongoing tenure, Haseeb Imdad has consistently demonstrated exceptional technical expertise, leadership, and a strong ability to impart knowledge effectively—qualities that make him highly suited for academic and teaching roles.

As a Software Engineer, Haseeb Imdad is proficient in **Python (Django Rest Framework)** and **React**, with a deep understanding of software engineering principles. His responsibilities include:

- Designing and developing complex software solutions.
- Leading end-to-end project development, from requirement gathering to deployment.
- Mentoring team members and fostering collaborative learning environments.

In addition to his technical expertise, Haseeb Imdad has displayed outstanding teaching and mentoring abilities. His contributions include:

- Training new employees and interns in modern software development frameworks, tools, and practices.
- Conducting technical workshops and sessions to share his knowledge of full-stack development.
- Supervising and guiding junior developers to enhance their technical and professional skills.

Haseeb's ability to simplify complex concepts, foster critical thinking, and nurture a culture of learning among his peers highlights his suitability for a teaching role in Computer Science. He consistently balances his technical responsibilities with his passion for knowledge sharing, significantly contributing to the growth and success of his team.

We are confident that Haseeb Imdad's combination of technical expertise, teaching skills, and dedication to professional growth will make him an excellent addition to any academic institution

Best Regard,
Manager HR
